## Symposium 2025

### Conseil pour la protection des malades (CPM)

Together, reducing surgical wait times to limit the consequences and impacts on patients. The president of the scientific committee and vice-president of the CPM, Mr. Pierre Hurteau, is organizing the content of this event, to which patients, experts, doctors and representatives of the MSSS or Santé Québec are already invited, in a constructive effort to improve the situation of consequences and impacts on patients. An event that should not be missed, as the ideas and recommendations that will emerge will be topical and, above all, will be able to reduce long waits for surgery.

- Hôtel Sandman
  - 999 rue de Sérigny, LONGUEUIL Qc J4K 2T1
