

CPM EXPRESS

MARCH 8TH 2021

TO AFFILIATED COMMITTEES AND INDIVIDUAL MEMBERS

Dear members,

A lot of new information to forward to our members this month:

1. **VACCINATION** All citizens are invited to get the Covid vaccine as soon as invited to do so by the Health authorities. It is our most important action to confront the current health crisis.
2. **UNEQUAL TREATMENT** is being observed depending if you are a patient in a long term facility, or an employee of the health system. If, as a patient you test positive and then negative to Covid, the current rule is that you must go in quarantine for 14 days whereas, if as an employee you test negative the second time, you may go back to work with no further delay.
3. **SENIORS' HOUSES** without users' committees? It seems to be the plan by government authorities with the info published recently:
<https://publications.msss.gouv.qc.ca/msss/fichiers/2020/20-863-03W.pdf>

We all need to stay vigilant so that all future Seniors' houses have to have a users' committees.

4. AFFILIATION AND RENEWAL OF MEMBERSHIP TO CPM for committees which have not yet affiliated or renewed is important for the CPM to better serve and assist committees all over the province and more.

5. TRAINING SESSIONS STILL AVAILABLE TO AFFILIATED COMMITTEES by zoom. Do not hesitate to consult our website and register for training of your members: info@cpm.qc.ca

Please stay safe!
